Sage's Hair Band

Sage's free spirit and confidence is reflected in her carefree style. And her hair band would fit perfectly with any hairstyle!

WHAT YOU NEED

- Grey/silver hair band
- Silver star
- Flat resin bead

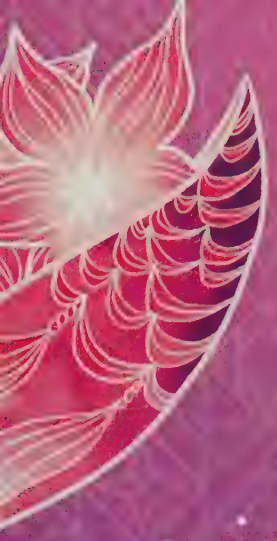
First we need to acquire the silver star. There are all kinds of five-arm-star patterns available in various stores. If you want to create your own stars, be sure to use firm materials that don't crumple or bend easily.

1. Use a glue gun to glue the silver star to the headband. Make sure it's centered

2. Again, with the glue gun, glue the flat resin bead in the center of the silver star. Allow to dry thoroughly.

As simple as that! Sage's beautiful hair band is ready.

Scarlet's Power Crystal



The magical Ravenstone is a complex pattern of dark red sparkling crystals, a beautiful accessory for all Starlings in the making.

1. Put some Mod Podge® onto a baking paper, about the diameter of a quarter. The reason we use Mod Podge® for this project is because it dissolves and becomes transparent, something the glue from a glue gun does not. If you want faster results you can, of course, use a glue gun, but the effect and texture will not be the same.

2. Add an eye pin to the Mod Podge®.

3. Add the crystal faceted round beads to the Mod Podge® and make sure all of them are in contact with the Mod Podge®.

WHAT YOU NEED

- Crystal faceted round beads
- Black string
- Eye pin
- Clasp
- Mod Podge®
- Baking paper

4. Move the eye pin upwards in between the crystal beads.

5. Add Mod Podge® on top of the first layer to make another layer of crystal beads.

6. Let it dry thoroughly – it can take up to 24 hours, depending on how thick the Mod Podge® is.

7. If you would like the pendant thicker add more Mod Podge® and crystal beads on the back of the crystal.

8. Thread a black string or lace through the eye pin and add a clasp or simply tie them together at the back of your neck.

Leona's Wish Blossom

Leona's Wish Blossom is the golden roar, an exquisite addition to any fabulous hairstyle

WHAT YOU NEED

- Assorted yellow satin cloth
- Small glass beads
- Star sequins
- Safety pin
- Needle and thread

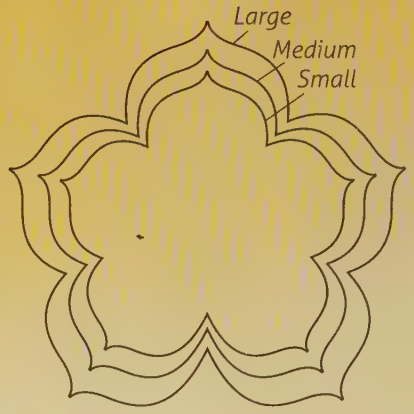
Trace the flowers, using the template on the right, on various types of yellow cloth and cut them out. Use as many as you want. The different yellow colors are layered from the biggest flower on the bottom to the smallest on the top.

1. Thread the needle with string through all the flowers. Thread 1 star sequin and 1 small glass bead to the string.

2. Hold the star sequin to the top flower and thread again through the star sequin and through all the



Copy the template to trace the different sized flower petals.

3. Repeat five times. Finish the threading on the back. Now the flower itself is ready.

4. Create an extra small sized flower petal and thread between the bobby pin and fasten with hot glue, using a glue gun.

5. Put hot glue on the flower petals on the extra flower and bobby pin and press to the main flower and press the petals together on the bobby pin and the bottom petals.

You now have Leona´s Wish Blossom on a bobby pin to add to that fabulous hairdo!

Star Struck Bobby Pins

Bobby pins are extremely useful for any hairstyle. But why not take the extra step? Here is a stellar way to create fantastic accessories with bobby pins.

WHAT YOU NEED

- Small glass beads
- Star sequins
- Bobby pin
- Needle and thread

1.a Cut 14 pieces of threads, 8 inches long.

1.b Take the needle and thread. Make a knot at the end of each thread.

1.c Thread nine glass beads and one star sequin of your choice of color until the beads and stars reach 2 inches, 3 inches and 4 inches.

1

1.d Repeat as follows:
Five 2 inches long beaded threads
Five 3 inches long beaded threads
Four 4 inches long beaded threads

2. Hold all the beaded threads together and tie a knot so the beads are in line as shows.

3. Take a bobby pin and thread the knot to the end.

4. Hide the knot. If you would like to you are welcome to glue it. Just make sure you do not glue the bobby pin together.

2

3

4

Star Struck Hair Combs

Here is a another great way to create fantastic accessories, this time with hair combs.

WHAT YOU NEED

Small glass beads
Star sequins
Hair Comb
Needle and thread

1. Cut 28 pieces of 20cm long threads.

2. Take the needle and thread. Make a not at the end of each thread.

3. Thread 9 small glass beads and 1 star sequin of your choice of color until the length of beads and star reaches 5cm, 7cm or 10cm.

4. Repeat as follows:

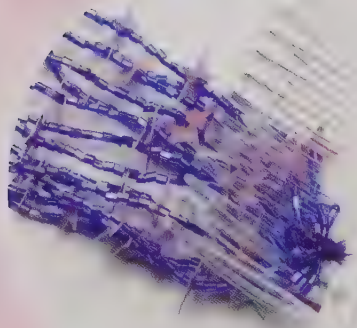
a. 10x5cm long beaded threads
b. 10x7cm long beaded threads
c. 8x10cm long beaded threads

1

5. Hold 14 beaded threads of various sizes together and tie a knot so the beads are in line as shows.

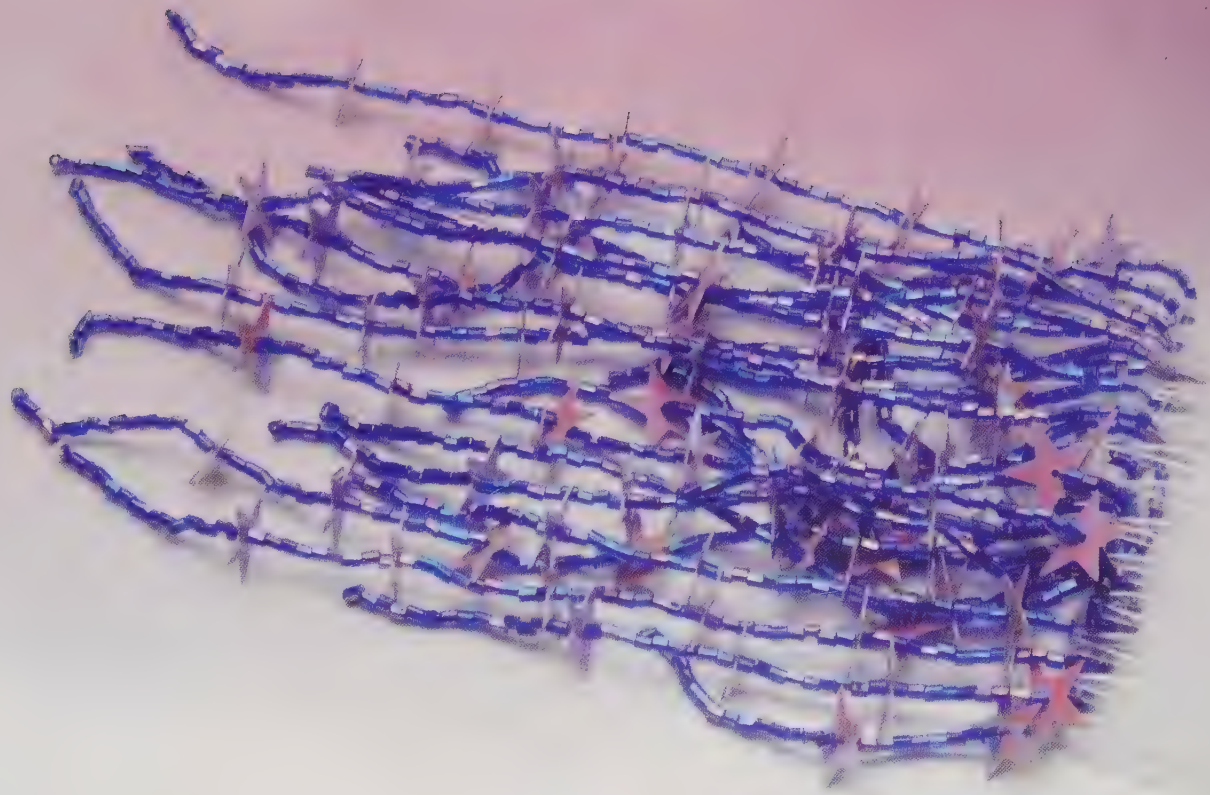
6. Take a haircomb and thread 1-3 beaded threads into each opening. One bundle to the right and one to the left like picture shows

7. If you would like to you are welcome to glue down the beaded threads to the comb to hold the bundles in place



2

3



Vega's Star Decoration

Vega is a bit of a perfectionist, as we can plainly see in this perfect hair comb accessory

WHAT YOU NEED

- Clear plastic comb
- Silver stars of various sizes
- Glue gun

First we need to acquire the silver stars. There are all kinds of five-arm-star patterns available in various stores. If you want to create your own stars, be sure to use firm materials that don't crumple or bend easily.

1. Take the comb and one silver star and glue together, using a glue gun. Start from the right.

2. Take another silver star to the left and glue next to the first one with two of the stars arms on or touching the first.

3. Add the third star above but in line with the other two. Make sure all three touch and collide. Repeat with all the stars.

1

2

3

The trick here is to make an irregular collage of big, medium and small stars that collide and touch irregularly. Play with the form of it.

Libby's Wish Pendant

Libby's unique wish pendant is like a constellation of golden stars. Here is how you make this dazzling accessory!

WHAT YOU NEED

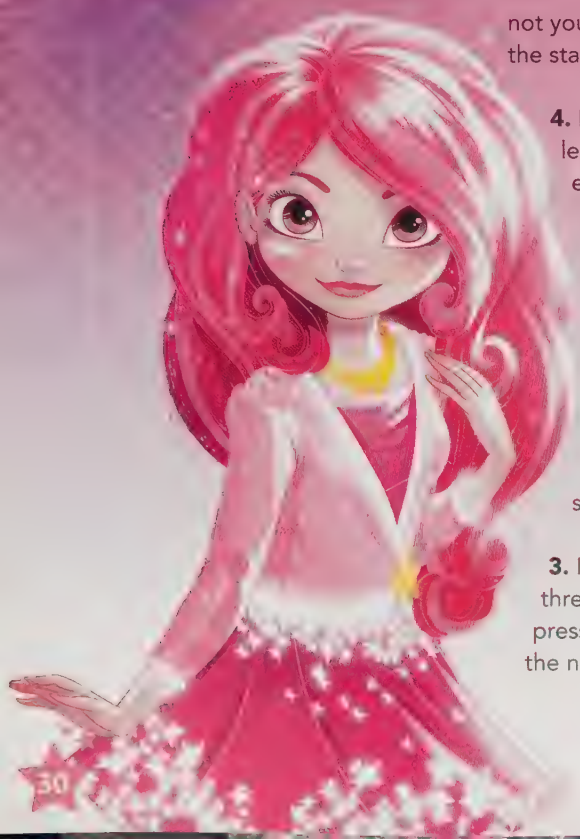
Thin, golden, metal string
Clear, glass beads
Star sequins
Crimps beads
Golden, lobster clasp.

First cut the thin golden metal strings into three segments. First 16 inches long, second 18 inches and third 20 inches.

1. Take the first string and thread 1 golden star sequin and 1 small clear glass bead.

2. Hold the star sequin with your thumb and thread the string again through the hole on the star sequin.

3. Pull tight. Thea glass bead should hold the star and the string in place. If not you can twist both ends of the metal string together under the star bead.



4. Repeat as many times as desired. Use thumbs length between stars and leave 2 inches on each end of the metal strings. Repeat on all 3 strings.

When all three strings are ready it's time to add the lobster clasp:

1. Thread one crimp bead onto the end of all three strings.

2. Place the lobster clasp at the end of all three strings like the crimp bead.

3. Make a loop out of the metal strings and thread them all again through the crimp bead and press it together. Do the same to the other side of the necklace.

Starling Elastics

Let's face it. Elastic bands are plain. So let's try this fun way to make your elastic bands more stellar!

WHAT YOU NEED

- Elastic
- Organza ribbon
- Flat resin star beads
- Glue Gun

The possibilities of this particular accessory are limited only by your imagination. There are numerous different ribbons and star beads to turn any plain elastic band into a great accessory for your lovely hair.

1. First cut the organza ribbon into 10 smaller ribbons, about 4 inches in length. Using a glue gun, fasten the flat resin star beads to each end of the ribbons.

2. Tie a ribbon to the elastic.

3. Tie the remaining organza ribbons to the elastic with equal intervals.

Fasten the beautiful band on a braid, pigtails, ponytail or any other hairstyle that requires an elastic band.

Cherry Blossom

The Punkytown is Scarlet's Wish Blossom. Sturdy burgundy leaves cup a burst of creamy star-shaped petals and will enhance any hairstyle

1. Cut a petal of the Pink Lily and remove all excess plastic. Remove all excess plastic from 3 Cherry blossoms. Cut the petals so they look more pointed (see picture 1)

4. Lay the three combined wires with Cherry Blossom petals on the Lily petal.

5. To hide the wires, cut out an extra piece of petal of the Pink Lily. Glue together, with a glue gun, the three wires and the small petal piece onto the large Lily petal. Allow to dry thoroughly

6. Add the bobby pin. Again, cut a small piece of Lily petal and thread between the bobby pin. Using a glue gun, put glue on the petal and on the bobby pin. Fasten onto the back of the blossom and allow to dry thoroughly.

2. Brush it back from the face and bind it into a ponytail at the crown.

3. Starting on one side of the head, gather a small section of the hair near the face. (If you make it too thick or wide it won't curl well.)

4. Hold the section away from the head and wrap the end once or twice around a curler clockwise (use small rollers for tight curls or large ones for loose curls). Now roll the curler away from the face and pin it snuggly to the head.

5. Continue rolling sections of hair to create a row that extends to the back.

6. Add a second row of curlers below the first. Roll the hair on the opposite side of the head, followed by the hair at the back. Let the hair dry completely before removing the curlers. Pin back the upper side curls with decorative bobby pins or barrettes.

Scarlet's Punkypow Pouf

1. Part the hair at the top left side of the head. Put on a hair band with the ends well behind the ears.

2. On the right side of the head, divide the hair forward of the band into two sections. Leave the front section loose. Bobby-pin the other section over the end of the band.

3. On the left side of the head, bobby-pin all of the hair over the end of the band.

4. Clip the hair at the crown out of the way. Backcomb the loose back hair to add volume.

5. Bind the backcombed hair into a ponytail.

6. Lightly backcomb the hair at the crown, and brush it down over the ponytail. Loosely curl the unbound hair near the face, using gel or spray to hold it, if you like. Bobby-pin a Punkypow Blossom to the hair beside the band.

Scarlet's Snare Drum Do

1. Part the hair at the top of the head on the left. Separate all of the hair above the part and forward of the right ear. Clip the rest out of the way.

2. Divide the loose upper layer of hair near the part into two sections.

3. Lift another small lock from the hairline. Cross it over the nearest (right) section and add it to the far (left) section. Next, cross a new lock of hair from the left over to the right. Repeat.

4. Continue down to the ear in this manner weaving in the loose hair and then finish the tail as you would a traditional fishtail braid.

5. Unclip the rest of the hair. Separate a section at the top and backcomb it to add volume.

6. Backcomb several more sections.

7. Lightly brush the hair back, smoothing the surface.

8. Gather the loose hair along with the end of the fishtail braid into a ponytail at the nape. Embellish the hair tie with a Star Struck Bobby Pin.
